Important Dates

QUICK THERE'S STILL A SEAT AT THE TABLE

The dining room comes alive **Friday 18 November at 1pm** for the Community Lunch prepared by the highly skilled BASScare 3 Star chefs at Faversham House. **RSVP today by 4pm.**

GOOD TO KNOW

Just a reminder for those who are in a position to attend the **Information Session** with Edward and myself that it is at **10:30am tomorrow (THU 10 NOV)** in the dining room.

Hester Class

Pack your paper towel to mop up your melted Choc Tops for when you get so engrossed in next **Tuesday Nights** cinematic great. Cinema lights down at 7:30pm.

JINGLE ALL THE WAY

It's starting to look a lot like Christmas so probably a good time to mention the **Hester Canterbury Christmas Lunch** on **Friday 12 December** in the dining room. Menu and sign-up form will be available soon.

Housekeeping Notices

MYSTERY INSIGHT (Who Am I?)

'Making history at a very young age, I was one of the first to ride on the foot plate of an R Class Express Locomotive, a reward received for my intricate craftsmanship to trace engineer designed pencil drawings onto

fine linen from which blue-prints were made of the R Class Steam Engine. I was the envy of most young boys and my office sat proudly within the magnificent building that is now the Grand Hotel in Spencer Street Melbourne'

So who could this be? Have a guess to **win the weekly prize**, you've got nothing to lose except how much you know about your neighbours. No one guessed last weeks correctly but to break the suspense, it was me.

WIPE OFF AFTER WORK OUT

One good thing to come out of COVID is our conditioning to **sanitise surfaces** where others work and play. Even more apparent is in shared spaces like the **Gym**, in which all equipment and mats should be wiped down after every use.

Thank you.

COMING SOON TO A SUN NEAR YOU!

Let there be light and there will be, naturally. **Energy Aware** have advised that they can potentially commence the installation of **Hester Canterbury's Solar Panels** next **Monday 14 November at 8am**. The initial set-up and install of the panels should take them roughly 2 days to complete, with an additional 2 - 3 days to wire it into our mains.

A crane will be required on Monday to get all the infrastructure and equipment onto the roof and the only location to position this is the driveway to the carpark, so there will be no access to and from between roughly **9am and 1pm**, however this is still to be advised. Though **Energy Aware** are doing everything possible to limit the disruption to the community, there will be some nice pollution in the initial stages of the project for those on the higher floors.

If you have any questions regarding this wonderful initiative, please let me know.

CAN YOU SPARE A MINUTE?

Hear that?...No!... That's the sound of silence on **Friday 11 November at 11am** when the **Hester Canterbury** community pause their morning tea for one minute to reflect and honour those who fought for our freedom.

The reference to **Poppies** stems from the opening lines of the World War 1 poem '**In Flanders Fields**' written by Lieutenant Colonel John McCrae who refers to poppies growing among the graves of war victims.

Lest we forget.

Have a fantastic week and take care.

Week Three of the Spring Menu starts on Monday 14 November.
Please place any orders by 1pm the Thursday before.
Bon Appetit!
